DETAILED ACTION

Allowable Subject Matter

1. Claims 1-25 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. Regarding claims 1, 6, 14, 22, 24, and 25:
 - a. The prior art of record teach of a system with two controllers, which operate in redundant active/standby mode. One such example of the prior art is Dempsey, et al, U.S. Patent Number 6,169,726. The prior art of record, however, fails to teach singly or in combination with another prior art at least the limitation of "plurality of monitor are operable to monitor the plurality of controllers" In the examiners opinion, the subject matter sought to be patented as recited in the claims in the application has practical application in the filed of redundant controller.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
